Strategy of REACH in Feller GmbH

The EC Regulation 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH Regulation) establishes an EU wide regulatory framework for the registration, evaluation and authorization of chemicals.

The REACH Regulation, which entered into force on 1 June 2007, covers all substances whether manufactured, imported, used as intermediates or placed on the market, either on their own, in preparations or in articles, unless covered by one of the exemptions provided for in the REACH Regulation.

Feller GmbH has taken decision not to register and not to notify the European Chemical Agency (ECHA) for any of the used substances. Feller GmbH will therefore purchase substances/articles that are registered and purchase materials&articles free from Substances of Very High Concern (SVHC).

Feller GmbH as a "Downstream User" has started requests to all suppliers to confirm if all chemicals used in products and preparations purchased by us, will be pre-registered and registered.

Feller GmbH REACH contact person is: herbert.lechner@feller-at.com
